

TRAIL FEATURES AND NOTES

- G** Short bluffs, moss-covered boulders and ferns everywhere. A great area.
- H** Very large pine trees with a great view up and down the Current River. Heading southeast, the ridge tightens to a thin narrow route before heading northeast toward and over a ridge saddle then heading down into Cabin Hollow and leaving the Current River valley.
- I** Excellent river views along the bluff.
- J** Great panoramic view of the Current River valley as you travel through glades, over rocky ledges and past shortleaf pine.
- K** Grassy glades with commanding views of the hills to the south.
- L** Sloping hillside gives way to a rock ledge with drops of 10 to 25 feet which produce an attractive waterfall in wet weather.
- M** North facing slope with towering oaks and an open understory, giving the area a lush feel.
- N** Tall bluff at the river's edge with spectacular views up and down the Current River.
- O** Echo Bluff State Park, a year-round outdoor destination featuring camping, fishing and mountain biking.
- P** Current River State Park has two lakes, picnic sites, hiking trails and access to the beautiful Current River.

WATER SOURCES

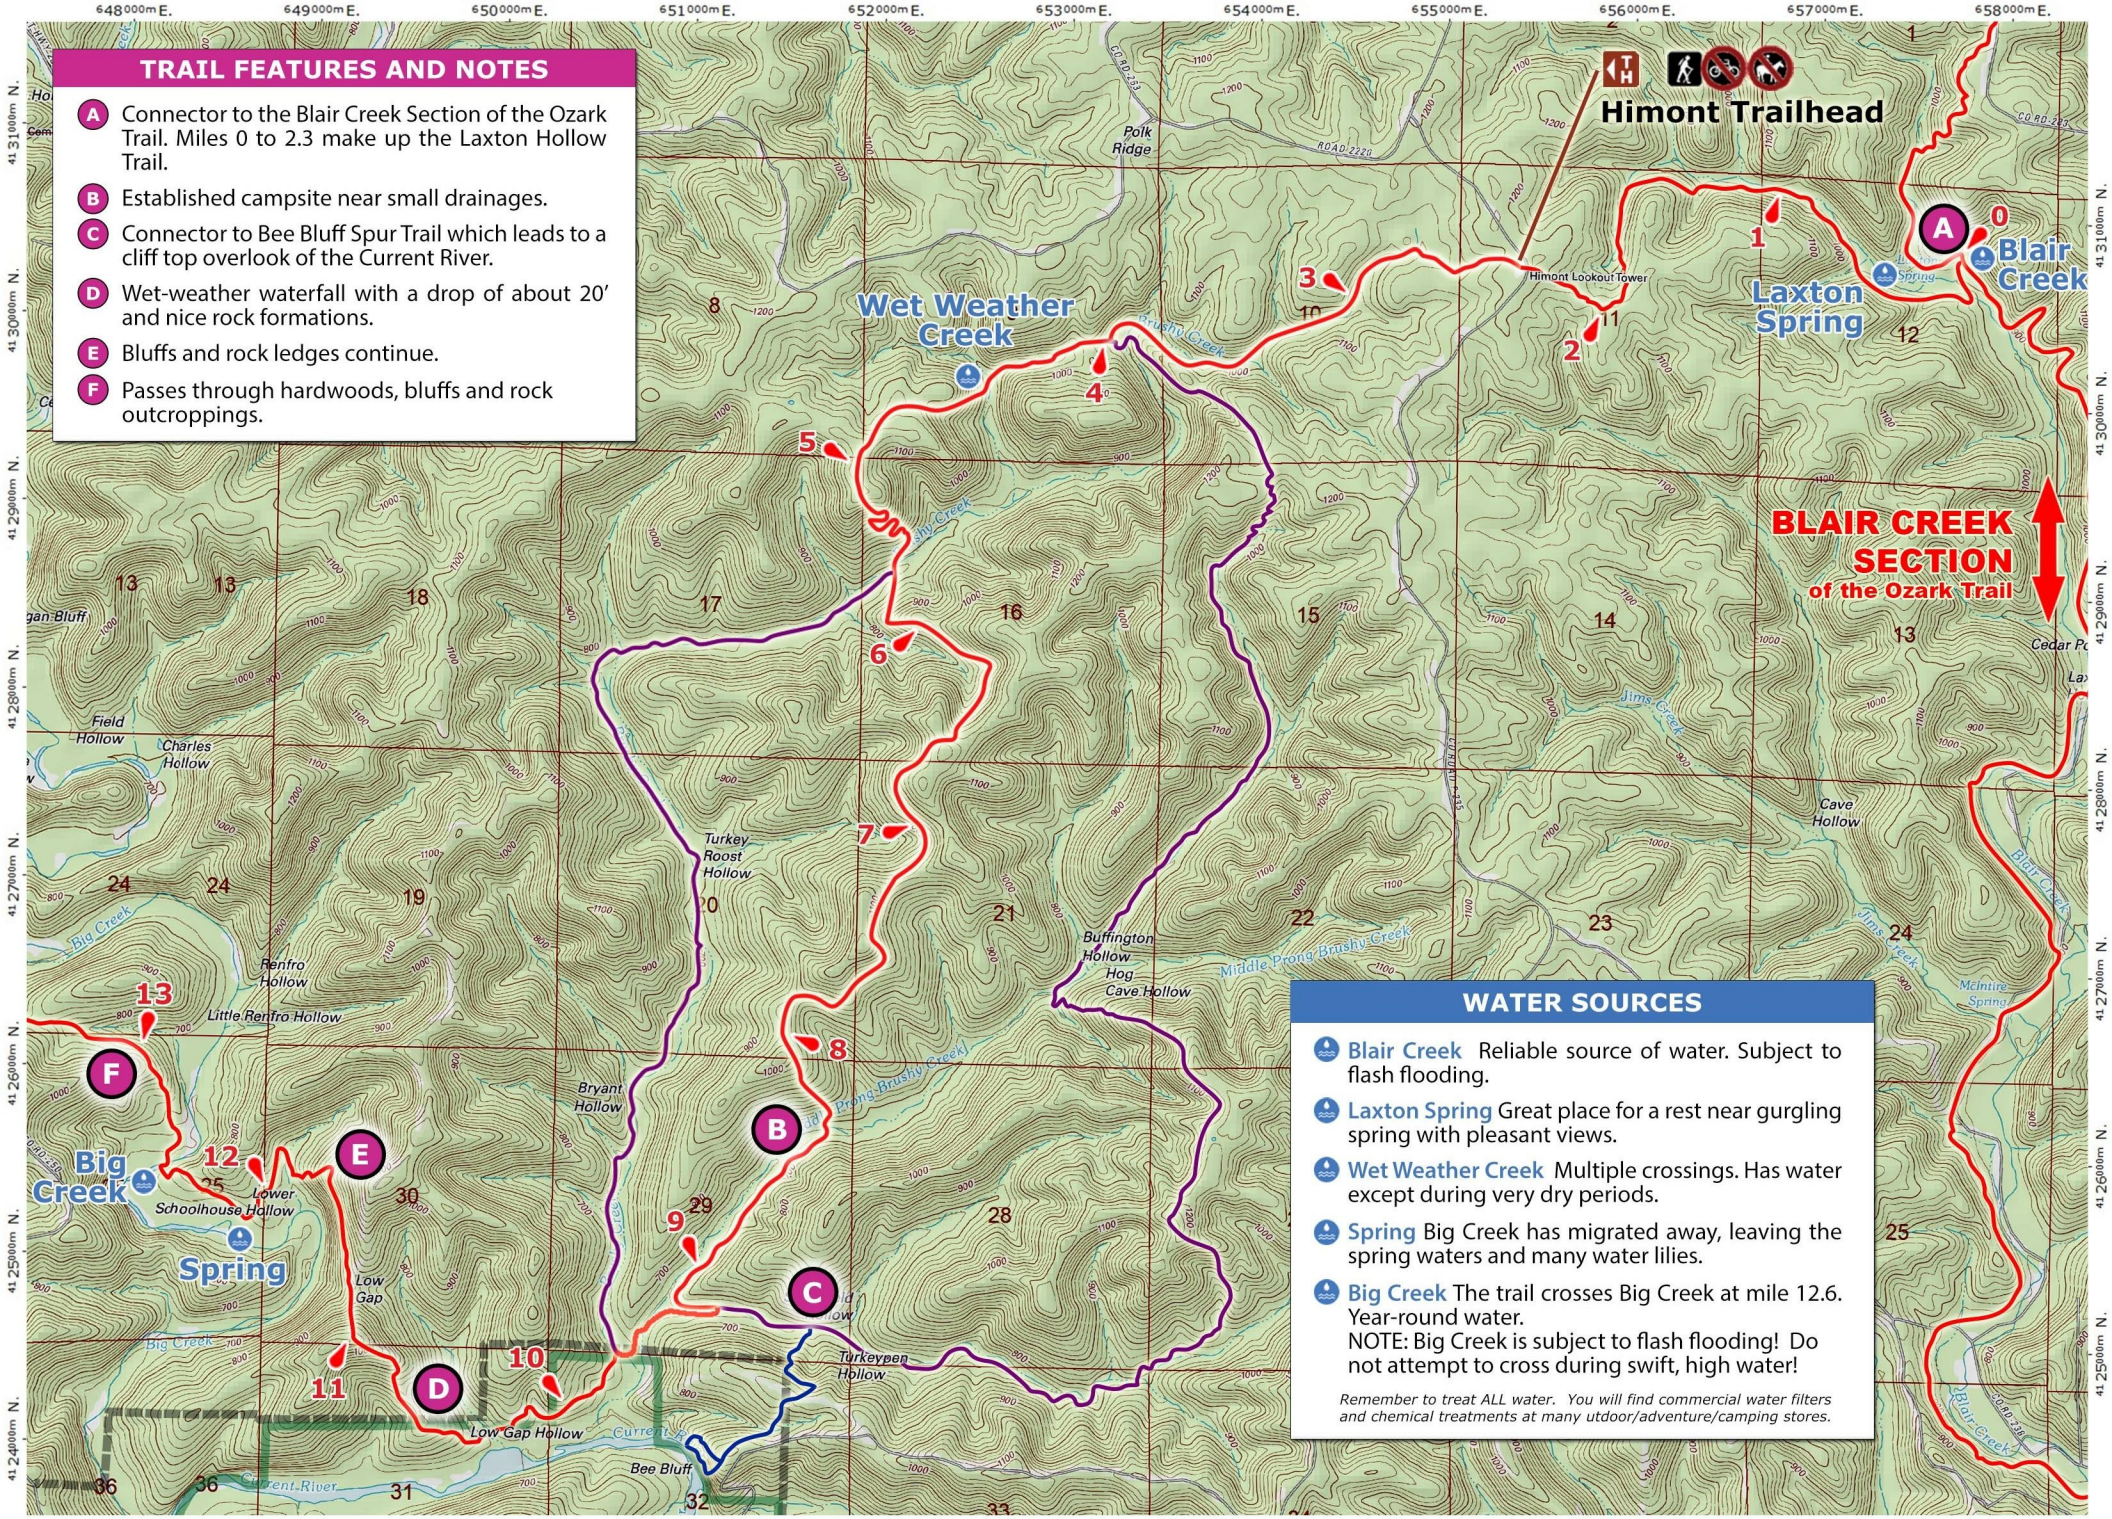

- A** **Creek** Excellent rock-bottom creek where a thin sheet of water washes into small pools and under the cover of cedars.
 - B** **Waterfall** Rock-bottom creek in Cabin Hollow hits a short fall zone of 8-10'.
 - C** **Creek Bed** A slough that gradually opens to a wide backwater. Water appears deep and clear.
 - D** **Small Pool** The drainage in Capps Hollow is mostly filled with gravel with the exception of a permanent pool of water with a depth of 2-3'.
 - E** **Waterfall** Small waterfall and junction with the high-loop trail.
 - F** **Sinking Creek** Pedestrian bridge at Echo Bluff SP
NOTE: Sinking Creek is subject to flash flooding! Do not attempt to cross during swift, high water!
- Remember to treat ALL water. You will find commercial water filters and chemical treatments at many outdoor/adventure/camping stores.

TRAIL FEATURES AND NOTES

- A** Connector to the Blair Creek Section of the Ozark Trail. Miles 0 to 2.3 make up the Laxton Hollow Trail.
- B** Established campsite near small drainages.
- C** Connector to Bee Bluff Spur Trail which leads to a cliff top overlook of the Current River.
- D** Wet-weather waterfall with a drop of about 20' and nice rock formations.
- E** Bluffs and rock ledges continue.
- F** Passes through hardwoods, bluffs and rock outcroppings.

WATER SOURCES

- A** **Blair Creek** Reliable source of water. Subject to flash flooding.
 - B** **Laxton Spring** Great place for a rest near gurgling spring with pleasant views.
 - C** **Wet Weather Creek** Multiple crossings. Has water except during very dry periods.
 - D** **Spring** Big Creek has migrated away, leaving the spring waters and many water lilies.
 - E** **Big Creek** The trail crosses Big Creek at mile 12.6. Year-round water.
NOTE: Big Creek is subject to flash flooding! Do not attempt to cross during swift, high water!
- Remember to treat ALL water. You will find commercial water filters and chemical treatments at many outdoor/adventure/camping stores.
